Chairman's Message

Dear All,

We live in an Interconnected and complex world that is changing at an unprecedented pace. Preparing children to succeed in this challenging environment demands a flexible and real-world-based approach to education. Indeed it requires a dynamic school that can turn learning into a life-long journey of enquiry and discovery, culminating in knowledge that truly matters. While academic strength is essential to survive children need excellent soft skills, strong communication skills an understanding of global culture and its appreciation, a good character, an attitude to be life long learner and contribute to the society at large. At PIS, we believe that the true objective of education is just philosophy at its core, we have nurtured an ideal schooling in Jaunpur with international standard and environment where each child can learn, thrive and achieve the fullest potential.

Our Principal

Mr. Thampi Raj.D
Principal, PIS

Greetings:

Being an educationist it gives me immense joy and peace to get down a little note of mine to you, The primary role of education is to foster excellence in learning, teaching and research that may be perceived by the nature of attention given to academic and co-curricular activities. Knowledge is the key resource with which we can generate ideas that will benefit the society in the long run. Ours is the knowledge based society; gone are the days of blind beliefs, superstitions, teacher-centered conservative methods of education. what is the need of the hour, is to facilitate the pupils to explore themselves and instill with the sense of confidence that they will carry throughout their lives.

Children are children, mild and tender that means they can be bent or broken, it's on our hands, so we need to nurture and mould them in such a way that helps them imbibe the right values, attitudes and knowledge on which they can pave the way of success in life and might be able contribute to the society where they live in as well.

I sincerely appreciate the parents for sending their children to an institution that gives predominant place to, learning, analysis, doubt, and question in order to "achieve together" and strive for excellence.

OUR CURRICULUM

English language skill is one of the most needed skills in the era of globalization for better career opportunities across industries, and also in the international trade and business. In the view of the growing importance of English language skills, *Communicative English* is being introduced as one of the subjects in our curriculum with Listening and Speaking Course designed by **University of Cambridge**

PERSONALITY DEVELOPMENT

Public Speaking Classes are conducted in the school right from Grade-1 onwards. The Public Speaking Classes have an enormous impact not only on building student's confidence of the but also on helping them achieve their goals.

ART INTEGRATED

Art integrated (or Art Integrated Learning - AIL) is an educational approach where art (visual arts, music, dance, drama) isn't a separate subject but a core medium for teaching other academic subjects like Math, Science, History, and Languages, making learning experiential, joyful, and holistic by connecting abstract concepts to concrete art forms, fostering creativity, and deeper understanding, as emphasized by policies like India's NEP 2020. It turns learning into an active, participatory process, helping students explore, create, and express ideas across subjects.

DANCE, MUSIC, ART, SPORTS

Art Education is another highlight of PIS Curriculum 2025-26 where students will indulge in a range of creative activities; students will also be provided with opportunities and platforms to unleash their creativities
